RIPANS

The simplest remedy for indigestion, constipation, biliousness and the many ailments arising from a disordered stomach, liver or bowels is Ripans Tablets. They have accomplished wonders, and their timely aid removes the necessity of calling a physician for many little ills that beset mankind. They go straight to the seat of the trouble, relieve the distress, cleanse and cure the affected parts, and give the system a general tonic. The Five Cent packet is enough for an ordinary case. The family bottle, 25 cents, contains a supply for a year. All druggists sell them.

HUMANITY'S NAME

Secretary Hay Invokes a Powerful Feeling in a Good Cause.

APPEALS TO POWERS

An Identical Note Is Addressed to Members of Berlin Treaty On Behalf of Roumanian Jews.

Intolerable Conditions Presented In the Balkans Demand Immediate Correction.

Washington, Sept. 18.—With the double purpose of protecting the long suffering Jews of the Balkan states and of averting the very present peril of the immigration into the United States of a horde of paupers, Secretary Hay has adopted the unusual course of appealing to the powers of Europe to force their children to observe the ob-

ligations of humanity in the case of the Jews. The appeal takes the form of a state paper remarkable in several respects which has been dispatched in identical form to every ambassador and minister of the United States residing in one of the countries of Europe which were parties to the famous treaty at Berlin in 1878, namely Great Britain, France, Germany, Russia, Italy, Austria and Turkey, marking the termination of the Russo-Rumanian war and the creation by the direct act of the powers of the independent Balkan states. Because the powers are thus responsible for the existence of Roumania, the culprit in this case, the secretary of state has directed the note to them in the hope that they will bring this government to a sense of its duties toward civilization at large as well as to cause it to ameliorate the frightful condition of the Roumanian Jews. In a measure this action by the department of state may be traced to numerous petitions from Jewish societies and humanitarians generally, as well as to the warnings of publicists respecting the growing dangers of the immigration of degenerates.

Bicycle Receivership.
Chicago, Sept. 18.—The American Cycle Manufacturing company, owner of the largest bicycle factory in Chicago, was placed in the hands of receivers yesterday by order of Judge Jenkins of Milwaukee. This action was taken on the application of Attorney Henry S. Towle, who explained that the concern had lost credit through the recent appointment of receivers for the American Bicycle company and that its business might be put in jeopardy at any time if the creditors should become impatient and secure judgments against the company. He said the corporation is entirely solvent but the cash on hand is small.

Ran Right Through.

Pottsville, Pa., Sept. 18.—A mob of several hundred persons intercepted a supply train which was being run over the Philadelphia & Reading railroad into the North Mahanoy colliery yesterday. When the engineer saw the crowd he put on steam and ran the train through regardless of obstacles. All non-union men on their way to work were turned back and forty men employed by the Mahanoy City Water company also were intercepted.

The Hostile Won.

Berlin, Sept. 18.—The naval maneuvers were ended yesterday by the hostile fleet under the command of the emperor, who was on board the imperial yacht Hohenzollern, forcing an entry into the Elbe, defeating the German fleet and breaking up a line of submarine mines.

Unrequited Love.
Tamaqua, Pa., Sept. 18.—His love unrequited, Peter Shaffer, a miner, last night shot and killed Mrs. Anna Lloyd, a widow, and then ended his own life by sending a bullet through his head.

Troops Not Needed.

Charleston, W. Va., Sept. 18.—Gov. White determined last night to call in the troops still on duty in the New river coal field, and they left for their homes today.

NO GROUND FOR IT

Thirteenth District Republicans Not Alarmed For Brick.

Indianapolis, September 18.—Walter Brown of Elkhart, member of the Republican state committee from the Thirteenth district, while here today took occasion to deny the reports that the Republicans are alarmed over Representative Brick's chances. There is no ground whatever, he said, for the Democrats hoping that they will carry the Thirteenth. He does not think that Professor Hering, the Democratic candidate for congress, is as strong as he was at the beginning of the race. "I think the district is in fine shape," said he. "I have made a trip through every county. Chairman Goodrich has also gone over it, and he sees no reason to believe we are going to lose." Fred Sims of Frankfort, chairman of the Ninth district, who was here today, predicted that Congressman Landis will be re-elected by a majority of nearly 3,000. The Ninth is to be well supplied with good speakers. Sims was informed today that Senator Foraker of Ohio will make a speech at Noblesville early in October. Julian Hogate of Danville, Fifth district chairman, who was here today, said the Fifth was never in better shape and that the indications are that the campaign will be opened with enthusiasm Saturday.

Secretary George E. Hunt of the Commercial club has sent the following to men who have taken an active hand in the primary election reform movement: "The work of the primary law committee is to be resumed at once. A meeting will be held Monday evening, Sept. 22, in the assembly room of the commercial club, and you are earnestly urged to attend. It is desired to appoint a sub-committee to draft the outlines of a bill. Please send at once to the undersigned any suggestions that may occur to you concerning (1) the future work of the committee and (2) important features of a good primary election bill. These suggestions will be arranged for submission to the committee at Monday's meeting." Addison C. Harris, former minister to Austria, is chairman of the committee, and he is giving the work much attention. John W. Kern, S. E. Morris, W. E. Fortune, Senator Chas. N. Thompson, J. A. Mintum, Mayor Bookwalter and many other prominent politicians and professional men here are giving the matter much thought. Immediately after the election a state meeting will be held at which the views of men from all parts of Indiana will be expressed.

Dan Hanna, son of Senator Hanna, has been subject to much attention since he came here the first of the week to look after his exhibit of fine cattle at the state fair. His figure would attract notice in any crowd, as he is more than six feet three inches high and is broad in proportion. He is smooth shaven and in countenance closely resembles his famous father. He has light wavy hair and altogether is an attractive personage. Young Hanna, however is not a politician and, strange as it may seem, it is said he does not pay much attention to his father's political schemes. He is wrapped up in his stock farm, which is said to be one of the finest in the country. The farm it is understood, has been in his mother's family nearly a century. It is located near Cleveland and is known far and wide as a model.

W. B. Wilson, secretary and treasurer of the United Mine Workers, has returned from Wilkesbarre, Pa., where he has been in conference with President Mitchell and the anthracite district officers. He was also present at a conference between Mitchell and President Gompers of the American Federation of Labor, but he says nothing but routine matters were considered. But routine matters with the miners' officials means provision for continuance of the greatest strike the world has ever known. Wilson declares that the men are firm and confident of winning and that the defense fund is proving sufficient to care for the wants of the strikers. He said that there are no indications as far as he knows of a settlement.

There will be at least five tickets on the ballot this year. The Social Labor party has filed a petition with the governor that entitles it to a place, and Chairman Robinson of the Pops says that his party will present its petition within a few days. This will make five with the Republican, Democratic and Prohi.

Stopped In Time.

Elwood, Ind., Sept. 18.—Rozella Dolan, aged twelve, had a miraculous escape from death here. The child is from Louisville, and is visiting the home of Tobias Houck. She was playing on the railroad bridge when the south-bound accommodation ran her down. The engineer stopped the train when it was within one foot of where the child had fallen between the ties. She escaped with slight bruises.

Nothing Doing.

Wilkesbarre, Pa., Sept. 18.—Inactivity at President Mitchell's headquarters and apparent activity in coal operators' circles covers the situation in this section of the strike region. President Mitchell still insists that his followers are remaining firm and that there will be no break in the ranks.

More Earthquakes.

St. Petersburg, Sept. 18.—Repeated violent earthquakes occurred throughout the entire eastern portion of Turkey from Aug. 26 to Sept. 3. Numerous houses were destroyed in Kashgar and in neighboring villages and a number of fatalities have been reported.

Russia Threatens to Do Things In the Siberian Seal Fisheries If Poaching Isn't Stopped.

Three Russian Gunboats Will Patrol the Fields and Summary Action Is Promised.

Odessa, Sept. 18.—The Russian government has announced that it will take effective measures to suppress the poaching operations of Americans and Japanese among the seals on the northeastern coast of Siberia. The measures will be enforced by three fast gunboats.

Although anxious to comply with the reiterated representations of Russia, the Washington and Tokio governments have failed to put an end to this

Illicit fishing in Russian waters. M. Yermoloff now gives formal notice that American and Japanese poachers captured within the limits of Russia's maritime jurisdiction on the Siberian coast will be liable to three months' imprisonment and their ships and cargoes to confiscation. This order will be enforced by gunboats. No discrimination will be made, the commanders and crews of poaching vessels will be subjected to the same punishment. In case of refusal to surrender or attempt to escape, the commander of the Russian gunboats are empowered to fire upon and sink the "sea pirates."

BOXERS RAMPANT

See Chen's Capital In Danger of Falling.

Shanghai, Sept. 18.—Cheng Tu Fu, capital of the province of See Chen, is surrounded by 50,000 Boxers, but their attempts to take the city have so far failed. Without immediate help, however, Cheng Tu Fu must fall.

If Cheng Tu Fu is taken, a rising in the provinces is inevitable. To further complicate matters, the feuds between Protestant and Catholic converts are now worse than at any previous stage, and magisterial jurisdiction in various matters has been unwarrantably interfered with by priests and missionaries.

Much Wanted Man.

Indianapolis, Sept. 18.—The young man giving his name as Frank Ford, who was captured by Detectives Dugan and Lancaster after a struggle in Blackwell's saloon in West Michigan street last Friday, in which Ford attempted to shoot the police, is William Dockery, one of the ten prisoners captured at Nashville by dynamiting the walls about two weeks ago.

He is wanted in St. Paul, where he formerly lived, in Sioux Falls, S. D., and in St. Cloud, Minn., and the Nashville authorities are more than anxious to get him back.

Tired of Prohibition.

Concord, N. H., Sept. 18.—Following the action of the party in Vermont, the Republicans of New Hampshire in state convention yesterday warmly debated the question of making changes in the prohibitory law. Those in favor of a change carried the day. The contest for governor was won by Nathum J. Batchelder of Andover, who is prominently identified with the Patrons of Husbandry.

Kelley Badly Wasted.

St. Louis, Sept. 18.—Late yesterday afternoon duplicate warrants for the arrest of Charles E. Kelley, who is being sought for on the charge of bribery and perjury in connection with the municipal hoodlums cases, were issued and placed in the hands of detectives.

Root's Return.

Washington, Sept. 18.—Hon. Elihu Root, secretary of war, returned to Washington last night after his trip to Carlsbad. The secretary looks rugged and says he is in splendid health. He resumed charge of affairs at the war department today.

BROUGHT HIM DOWN

Nebraska Triple Murderer Is Now In Jail.

Winslow, Neb., Sept. 18.—Dave Leary, a liveryman, started out alone yesterday to find Niegeland, the murderer who it was said had been seen near here. Leary came upon two men driving some cattle and thought one of them was Niegeland. Leary went to a nearby farmhouse and procured a shotgun and the assistance of Perry Berum, who had a target rifle. The two men went across a field to intercept the herd and soon came upon Niegeland. They called upon him to throw up his hands. The murderer drew a revolver and fired five times at Leary without effect, at the same time using his companion as a shield. Then Leary and Berum poured a fusillade of shots into him until he fell. He was brought to Winslow and doctors are attending him. They believe he will live, although he is unconscious. Niegeland a week ago with little provocation murdered his divorced wife and her father and wounded his former wife's mother and sister. He escaped and sent back word that he would finish the rest of the family before he was done. Night and day posses with bloodhounds had been searching for him. Rewards aggregating \$1,000 had been offered for his capture.

Peace Between Neighbors.

Santiago, Chile, Sept. 18.—The Argentine commission bringing the protocols of the treaties providing for arbitration between Argentina and Chile and the limitation of the armaments of the two countries, arrived here from Valparaiso yesterday and was accorded a cordial reception. The protocols will be exchanged Sept. 22. National festivities in honor of the understanding arrived at will now commence. There is great enthusiasm here and the streets are thronged with joyous people.

Third Washery Burned.

Scranton, Pa., Sept. 18.—The Taylor Coal company washery in North Scranton was totally destroyed by fire this morning. It is alleged to be of incendiary origin. The watchman declared that he chased four prowlers from the premises just before he discovered the fire. The washery had not been in operation for a month. This is the third Scranton washery destroyed by fire since the strike began.

AN INDIANA MAN

Is Now Talked of As In Line For House Speakership.

HEMENWAY'S CHANCES

The Hoosier Congressman From the First District Holds An Influential Place.

Matters of Interest From Various Parts of the State For Hurried Readers.

Indianapolis, Sept. 18.—The withdrawal of Speaker Henderson as a candidate for congress is widely discussed here by politicians of both parties. Some Republican leaders are of the opinion that his withdrawal will benefit Indiana by paving the way for

JAMES A. HEMENWAY.

the appointment of Representative Hemenway, of the First district, to the position that will be thus made vacant. Mr. Hemenway has been second man on the committee on appropriations during the last two sessions, a position that has caused him to be regarded as one of the influential members of congress. Washington papers mention him as a strong possibility for the speakership.

AN EARLY TRIAL

Is What Terre Haute People Want For Alexander.

Terre Haute, Ind., Sept. 18.—It is uncertain when the negro murderer, Matthews Alexander, will be brought back from Indianapolis. The officers are opposed to bringing him here for a month or longer, while public sentiment and all the newspapers urge that the best thing for the reputation of the community would be to bring him back at once and have a trial. The authorities seem to have agreed not to bring him here for six or seven weeks.

They Want to Come Home.

Alexandria, Ind., Sept. 18.—Walter Carver, Price Dean and Clarence Brown, the three youngsters who ran away with a team and wagon belonging to young Carver's father, three months ago, have been heard from for the third time. They are at La Junta, Col., where they sold the team. They want to come home, and offer to pay for the team. Their parents will not kill the fattest calf, and the fate of the youngsters is uncertain.

Woman's Painful Condition.

Fort Wayne, Ind., Sept. 18.—Mrs. Frank Grim was bending over a stove yesterday preparing a meal for her family, when she was attacked with heart failure. She fell on the red-hot stove and her arms and breast were frightfully burned. She is still alive, but her death is expected at any time. She has a husband and five children.

Boys' Terrible Fate.

Frankfort, Ind., Sept. 18.—Late last evening two young sons of George Trobaugh, a well-known farmer, six miles north of here, were burned to death in a strawstack into which the boys are supposed to have burrowed and started a fire. They were unable to escape and their bodies were almost totally consumed.

Sherwell's Trial.

Evansville, Ind., Sept. 18.—The trial of Wilbur S. Sherwell, charged with the murder last year of Mrs. Georgia Bailey and Miss Lena Ranner, while serving as a police officer, was set yesterday for Oct. 20 next. Sherwell has been in jail nearly a year.

Boiler Let Go.

Whiteland, Ind., Sept. 18.—The large boiler in Dickinson's elevator blew up and completely destroyed the machinery and boiler room. No one was injured. The engineer had gone into the mill two minutes before the explosion.

An Unhappy Accident.

Elwood, Ind., Sept. 18.—While hunting east of the city Walter Barton was accidentally shot and fatally injured by his brother Howard. The bullet entered under the heart, lodging in the left lung.

Grief Stricken Driver.

Petersburg, Ind., Sept. 18.—The young child of Mrs. Crill Butler was run down by a wagon and crushed beyond recognition. Jeff Ferguson, the driver, is crazed with grief.

BIG NAVAL SHOW

Coming Maneuvers In the Caribbean On Great Scale.

Washington, Sept. 18.—The naval general board will resume its sessions in Washington next Tuesday. During the summer the board met at Newport and elsewhere, and it has pursued without interruption the preparation of plans for the great combination maneuvers to take place in the West Indies during the winter. Admiral Dewey, president of the board, is intensely interested in these maneuvers. It was his desire to keep in personal touch with the junior officers of the board who are working out the numerous details of the vast scheme which led the admiral to curtail his vacation in the mountains of Pennsylvania and return to Washington to meet the board.

It is the present intention to start the entire North Atlantic squadron southward, bound for Culebra Island, Nov. 15 next. Rear Admiral Crowninshield's European squadron will sail from Gibraltar about the same time, while Rear Admiral Sumner, commanding the South Atlantic station, being further removed from the rendezvous at Culebra Island, will sail northward with his small fleet about the first week in November. The dates of departure of the various fleets will be timed so that three naval columns will converge on Culebra Island about the same date.

MORE DANGER

People of St. Vincent Fear Another Eruption.

Kingston, St. Vincent, B. W. I., Sept. 18.—Both craters of La Soufriere have been active since Sept. 11. The top of the mountain is usually covered with clouds, but being exceptionally clear of them yesterday, two natives named Cummings and Adams ventured to ascend the volcano and reached the summit of the old crater. Sept. 3 this crater contained water; it is now nearly filled with sand, and has a funnel-shaped cavity in the center. Cummings and Adams saw flames rising from three distinct places in the crater. They experienced a narrow escape. The heat on the mountain was intolerable.

The predictions made by American scientists with regard to later eruptions of La Soufriere are being signally fulfilled. Much anxiety is now felt here, as it had been predicted that another eruption would shortly occur.

Evarts and the Author.

When a popular young author came to see William M. Evarts while he was secretary of state in behalf of a consularship for which he was an applicant, Mr. Evarts congratulated him on the fame which he had acquired, but hastened to add, "Although you have laurels on your brows, I suppose you can't browse on your laurels."

IT MUST COME.

As inevitable as the changing seasons of the year is the change which comes to every woman. And just as one anticipates the changes of other seasons it is wise to anticipate this change of season and prepare for it. In this way the discomforts and disasters suffered by many women at the period of change can be avoided or overcome.

Dr. Pierce's Favorite Prescription, a medicine for every season of woman's life, will entirely meet the needs of women at this period of change. It cures the physical ills and relieves the mental anxiety and depression usually associated with this critical period. It tranquilizes the nerves, encourages the appetite and induces refreshing sleep.

J. S. Carlisle, Esq., of Manchester, Coffee Co., Tenn., writes: "I have been using your medicine for the last sixteen or eighteen years in my four-house. I am superintendent of the Coffee County Poor-house and Asylum combined. Your 'Favorite Prescription,' 'Golden Medical Discovery' and 'Pleasant Pellets' are the best medicines for the diseases for which they are recommended, that I ever used. They saved my wife's life at the time of 'change of life.' I have been recommending your medicine to many afflicted women and have also guaranteed that if it did not cure I would pay back the money spent for it. I have told our druggist that if the people came back and said 'Doctor give them back their money and charge it to me.' I have not once been called upon to refund. I have never found anything to equal the 'Favorite Prescription' for diseases of women."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Call for Judicial Republican Convention.

The republicans of the forty-second judicial district of the state of Indiana will meet in delegate convention at Paoli, Ind., on Saturday September 27th, 1902, at 2 o'clock p. m., for the purpose of nominating a republican candidate for prosecuting attorney of said district.

The apportionment of delegates will be the same as that applied to the last republican state convention. Jackson county will be entitled to fourteen delegates and fourteen alternates; Orange county will be entitled to eleven delegates and eleven alternates; Washington county will be entitled to eleven delegates and eleven alternates, making the total number of delegates thirty-six; necessary to a choice, nineteen. By order of

W. H. BURKLEY, Chairman Jackson County R. C. C.
J. P. THROOP, Chairman Orange County R. C. C.
LEWIS DENNIS, Chairman Washington County R. C. C.

Convention Dates.

The republican county convention will be held at the court house in Brownstown on Saturday, September 20, 1902, at 11 o'clock a. m.

The judicial convention will be held at Paoli on Saturday, September 27, 1902, at 2 o'clock p. m.

UNUSUAL interest is being manifested in the Western trip of President Roosevelt, which will begin next week. He will be in Indianapolis September 23.

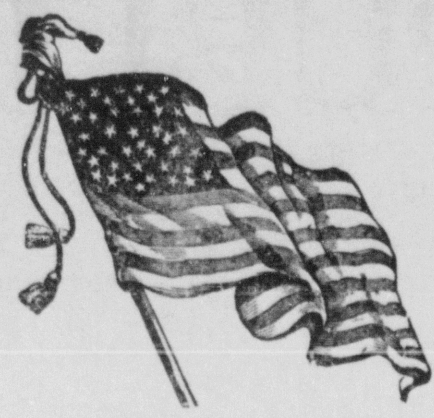

INVENTORS are at work on all sorts of fuel ideas, and the public will be glad when they demonstrate that anthracite is not the only article in the mineral kingdom that will answer the purpose.

THE republicans of this county were fortunate to secure Hon. Dan Storms for a speech at the convention at Brownstown Saturday and Hon. M. L. Clawson for a speech at Seymour Saturday night. Both are excellent speakers.

FRIDAY, October 24, will be Arbor Day in Indiana, the date being fixed by Governor Durbin's proclamation. The day will be observed by many schools throughout the state. As timber becomes scarcer more importance will be attached to the observance of this day.

THE trusts, according to reports, are making contributions to the democratic campaign fund, and the stories are that Griggs, Carmack and the rest of the aristocrat howlers are embarrassed thereat. There should be no such feeling, however. The friendship of the trusts for the democratic party was seen long ago. The sugar trust it was said, made a heavy contribution to the Cleveland campaign purse in 1888, as compensation for the favor done it by the gentlemen who framed the Mills tariff bill. Nixon, who was Crocker's understudy at the head of Tammany, is at the head of a trust now, while the republican's old ally, Senator Jones, of Arkansas, the head of the democratic national committee, has been a member of a combine for several years.—St. Louis Globe-Democrat.

Hon. M. L. Clawson, of Indianapolis, will speak at Society Hall in Seymour, Saturday, September 20, at 7:30 p. m.

Hon. Daniel E. Storms, candidate for secretary of State, will speak at the Jackson county republican convention Brownstown, Saturday, September 20.

Hon. J. M. SPENCER, republican candidate for congress, has been invited and is expected at the county convention next Saturday.

THE magnitude of the state fair exhibits and the record breaking attendance is indicative of republican prosperity that prevails among the people.

THERE will be a reunion of soldiers in this city tomorrow, the 82nd Indiana. Seymour welcomes them and trusts that their stay here will be both pleasant and profitable.

THE democrats are endeavoring to get comfort out of the withdrawal of Speaker Henderson from the race for congress, but the consolation they get out of that will not last long.

THE tireless talker, George Fred Williams, has lost his laurels in Massachusetts and is no longer a leader there. That is another jolt for Bryan but he can get back at them through the Commoner.

SINCE the withdrawal of Speaker Henderson from the race for re-election, there is some talk of Congressman Hemiway of Indiana as his successor as speaker of the House.

VINCENNES is having a busy week. The Indiana Methodist conference is in session there and about 300 preachers are present, the street fair and carnival is in progress with a midway attachment and B. F. Shively, the Bryan leader of Indiana, was there to make a democratic speech. Such a variety of entertainments does not often strike a town all the same week.

THE people heard the cry of "robber tariff" in 1892 and elected Grover Cleveland and a democratic congress. They learned their mistake and repudiated the democratic party at the first opportunity. The people will be slow to take up with the "tariff reformers" again. They will take no chances on putting the democratic party in power again. It is the continuance of prosperity and not a panic that they want.

Reunion of the 82nd.

The annual reunion of the 82nd Indiana regiment will occur tomorrow at the G. A. R. hall in this city. September 19th is the anniversary of the battle of Chickamauga in which this regiment participated, and it has been their custom to meet in reunion on this anniversary. The 82nd was recruited in Jennings, Jefferson, Brown and Monroe counties and is often spoken of as General Hunter's regiment. The president of the regimental association is W. H. Black and the secretary is Alph C. Hunter.

"Eleventh Hour."

Manager Rooney has secured for one performance "The 11th Hour." This is Lincoln J. Carter's great comedy drama, and one in which he has surpassed any of his former efforts. It is replete with comedy and pathos, blended in a manner that will suit all. The scene of the play being Chicago, the home of exciting events, one can easily imagine the result. Mr. Carter introduces for the first time on any stage a reproduction of a complete "Block Tower" which is used on all trains to check the running of trains, thus insuring the safety of thousands each day. The last act is the hand-somest and most expensive stage setting ever produced outside of the large cities.

Feet Swollen to Immense Size.

"I had kidney trouble so bad," says J. J. Cox, of Valley View, Kentucky, "that I could not work; my feet were swollen to immense size and I was confined to my bed and physicians were unable to give me any relief. My doctor finally prescribed Foley's Kidney Cure, which made a well man of me." All druggists.

Capt. Joseph Balsley, of Indianapolis, formerly of Seymour, was elected secretary and treasurer of the 27th Indiana Regimental Association at the reunion of the regiment at Indianapolis Wednesday.

For forty years Dr. Fowler's Extract of Wild Strawberry has been curing summer complaint, dysentery, diarrhoea, bloody flux, pain in the stomach and it has never yet failed to do everything claimed for it.

August Health Report.

The reports to the state board of health just tabulated shows there were 3,158 deaths in August, a rate of 14.8. In July the deaths numbered 2,907, a rate of 13.6. In August of the preceding year there were 2,932 deaths, a rate of 13.7. Smallpox was the most prevalent disease with only 2 deaths. In July there were 15 deaths from this cause. Typhoid fever, which was the sixth in order of prevalence in July, was the second in August. The number of deaths from this disease was 167; in July the number was 85 and in August 1901 was 137. The diarrhoeal diseases caused 550 deaths, while in July the number was 473, and in August 1901 it was 464. The increase in deaths and also in prevalence of typhoid fever and diarrhoeal diseases, was probably due to well pollution caused by surface drainage made possible by the extraordinary rain fall. Dug wells should be absolutely abolished, for only such wells can receive surface pollution. The mean temperature was lower in August than in July and this caused people to seek the interior of their houses to a greater extent, and so not having so much out door life, with its abundant pure air, coughs, colds, tonsillitis, bronchitis, diphtheria, and scarlet fever increased in prevalence. Out door life and good ventilation certainly lessen the prevalence of this class of disease. Typhoid fever and the infectious diseases of children, (diphtheria, scarlet fever, whooping cough, etc.) will show further increase in September.

Water Cure for Chronic Constipation.

Take two cups of hot water half an hour before each meal and just before going to bed, also a drink of water, hot or cold, about two hours after each meal. Take lots of out door exercise—walk, ride, drive. Make a regular habit of this and in many cases chronic constipation may be cured without the use of any medicine. When a purgative is required take something mild and gentle like Chamberlain's Stomach and Liver Tablets. For sale by C. W. Milhous, druggist.

Victim of Lockjaw

James Johnson, an employee of the National Starch Company, who was run down by a street car in West Washington street and lost a leg several weeks ago, is dying of lockjaw at the city hospital, where he has been treated since the accident. Symptoms of the disease appeared several days ago, but it was thought it would be ward off. Today all hope of his recovery was lost, and the physicians said he would probably die before night. Johnson is twenty-eight years old and has a wife at Seymour.—Indianapolis News.

Mrs. W. H. Schlosser entertained the Ladies' Missionary Society of the First Baptist church at her home, corner of Second street and Indianapolis avenue, this afternoon.

E. W. GROVE.

This name must appear on every box of the genuine Laxative Broom-Quinine Tablets, the remedy that cures a cold in one day. 25 cents.

JOSEPH WESTHAFF, of Loogootee, Indiana, is a poor man, but he says he would not be without Chamberlain's Pain Balm if it cost five dollars a bottle, for it saved him from being a cripple. No external application is equal to this liniment for stiff and swollen joints, contracted muscles, stiff neck, sprains and rheumatic and muscular pains. It has also cured numerous cases of partial paralysis. It is for sale by C. W. Milhous, druggist.

UNCLE SAM'S FREAK MONEY

Bills That Are Twenty Dollars on One Side and Ten on the Reverse.

Scattered throughout the country are a few pieces of paper money that are known as "freak bills" by the officials of the treasury department. One of them turned up in this city not long ago—it had the imprint of a twenty dollar note on one side and a ten on the other. As the face showed the twenty, that was its legal value.

The deputy assistant treasurer of the United States, who is stationed in the New York treasury, was speaking of these freaks the other day and said he had only seen one of them in his life, although he had heard of several. Very rarely they have slipped through the bureau of engraving and printing despite a careful scrutiny by three or four sets of inspectors. In most cases they have been national banknotes, which like regular treasury notes, are printed at the bureau in Washington. The face value always is recognized when the freaks come to be cashed in at any branch of the treasury, and the imprint on the back has no lawful status whatever.

"The notes are printed in sheets at the bureau," said the official. "Usually there will be one twenty and two tens on a sheet. They are printed one side at a time, so it can be seen that the printer in turning over the sheet might get it upside down and thus put a ten dollar back on the twenty dollar note, or twenty on the back of one of the tens."

In the bureau are women who are supposed to examine all the bills carefully, but occasionally they neglect to look at both sides as scrutinizingly as they should, and so the money goes out into circulation. When errors are discovered, the misprinted sheet is laid aside to be destroyed. It cannot be torn up at once, for every sheet has to be accounted for. After a good deal of red tape, it is ground up into pulp.

Most of the freak bills which have been issued in the past have found their way back to the treasury, there to be destroyed. It is thought that less than a dozen are now scattered about, most of them in the hands of curious hunters. The official said that no effort to collect them had been made by the government and that the treasury department did not consider the circulation of the few notes a matter of any consequence, inasmuch as there was no doubt about the values as indicated on the face.—New York Times.

THE COOKBOOK

If the pastry be slow in browning, throw a little sugar on the oven shelf. This will expedite matters greatly.

If the skin of a beet root has got broken, sear the part with a red hot iron before cooking it. This will prevent the beet from bleeding.

The next time tomato soup is planned for the family dinner try adding a few slices of orange just before serving and enjoy the pleasant flavor which they impart.

Eggplant is most palatable when broiled. Cut into thick slices, with the skin on; dip in olive oil seasoned with salt and pepper and cook on wire broiler over a clear fire five or ten minutes. When a cake contains too much flour or has baked too fast, it will sink from the edges or rise up sharply, with a crack in the middle. If cake has a coarse grain, it was not beaten enough or the oven was too slow.

If you like coconut pyramids, beat the whites of two eggs till light and stiff; mix with two cupfuls of grated coconut, one cupful of powdered sugar and two tablespoonfuls of flour; make into pyramids and bake brown.

A "Bird" Anyway.

Mrs. Spenders—"That's what I call a 'duck' of a bonnet."

Mrs. Spenders—"Yes! I'd call it a 'peacock'."

Mrs. Spenders—"A 'peacock'?"

Mrs. Spenders—"Yes; on account of the size of the bill."—Philadelphia Press.

DIED.

LEEDY—Mrs. Elizabeth Leedy died Wednesday night at the home of her son, L. N. Leedy, about one mile east of Freetown. She had been complaining for a few days but her condition was not considered dangerous. She went to her room and retired Wednesday night about the usual hour. Later in the night some one of the family went to her room to see if she needed an thing and found her dead in bed. She was 84 years of age. Dr. Kye and F. W. Wesner drove out this morning to hold an inquest and found that her death was due to natural causes.

Will Probably Rebuild Soon.

The probabilities are that the rebuilding of the Seymour Furniture Factory will be begun in a very short time. The stock holders have asked for some aid to give them a start and this request has met with prompt response from citizens so that now practically nothing more remains but to sign up agreements and begin work. The people of Seymour will be glad to know that this valuable industry is in a fair way to be in operation and employing a large force of men in the near future.

Digests what you Eat

Dyspepsia Cure

The medical profession is one of the most conservative in the world. It is well that it should be so. We want no experimenting with our lives or health. The physician is naturally and justifiably careful to prescribe no remedy until well satisfied of its merits. So it is no small testimonial to the worth of Kodol Dyspepsia Cure that it is coming into general use among physicians of all classes. They appreciate even more readily than the layman that it gives weak stomachs just the rest they need and are prescribing it freely with wonderfully successful results. No dieting is necessary. Eat all you want. While you are strengthening the body with wholesome food Kodol Dyspepsia Cure is restoring the stomach to perfect health by relieving it of its work. Don't be satisfied with merely temporary relief when this remedy offers a complete cure. "I have used it in my practice quite a lot of Kodol Dyspepsia Cure. It has no failures but relief in almost all cases," writes Dr. W. L. Walworth of Kingsport, S. C. "After an active practice of forty-five years I am the first time I have ever had occasion to publicly advise all my dyspeptics that they have a certain remedy in Kodol Dyspepsia Cure."

A Startling Admission.

London, Sept. 18.—Nothing daunted by his recently conferred knighthood, Sir William Allen, advanced radical member of the House of Commons, addressing the House of Commons yesterday, created no little sensation by describing the British navy as a phantom fleet with a skeleton crew. He declared the navy was short 14,000 firemen, 2,000 engine room artificers and 900 engineers. Sir William declared also that if the admiralty would build, arm and man ships as it should, this could be done on half the money now expended. He said the admiralty was a gigantic muddle and that its old conservative system needed reformation.

Indians in Politics.

Guthrie, O. T., Sept. 18.—Pleasant Porter, governor of the Creek Indian nation, has called a meeting of the governors of five civilized tribes to be held at South McAlester on Sept. 26 for the purpose of formulating a general plan for bringing Indian territory into statehood at the expiration of tribal government in 1906. Governor Porter says the Indians are opposed to statehood with Oklahoma.

Soldiers in a Wreck.

Little Rock, Ark., Sept. 18.—A special train carrying Companies B and C, 22nd Infantry U. S. A., stationed here, collided with the Hot Springs freight train from this city yesterday afternoon, two of the freight crew being killed, Fireman Dowdy White and a negro brakeman. The trains ran together head-on on a curve and the soldiers were badly shaken up and several were injured.

Murdered and Robbed.

Fort Scott, Kan., Sept. 18.—At Pawnee, near here, R. J. Morrison, a pioneer, was called to the door of his store, where he slept, slugged, and his throat cut from ear to ear by an assailant who escaped. Morrison's wallet containing \$500 is missing.

Insane Man's Deed.

Essex, Conn., Sept. 18.—Thomas D. Coulter, judge of probate, and First Selectman Henry O. Pratt were shot and seriously wounded on the street yesterday by David Hayden, insane. Hayden then blew the top of his head off with a shotgun.

Lincoln's Sweet Word.

One story that is told of Lincoln relates to that extreme, corrective critical attitude which Secretary Seward always maintained toward the president.

Mr. Lincoln and the secretary had managed to escape from a man who had been boring them, and as they reached the house the president threw himself into an armchair and exclaimed:

"By Jingo, governor, we are here!"

Mr. Seward replied by asking in a reproving tone:

"Mr. President, where did you learn that inelegant expression?"

Mr. Lincoln immediately turned to several young men who had entered the room in time to hear the exclamation and said:

"Young gentlemen, excuse me for swearing before you. 'By Jingo' is swearing, for my good old mother taught me that anything that had a 'y' before it is swearing. I won't do so any more."—Youth's Companion.

FAIR EXCHANGE.

A New Back for an Old One—How it is Done in Seymour.

Sometimes the back aches with a dull, indescribable feeling making you weary and restless; sometimes pain shoots across the region of the kidneys, and again the loins are so lame to stoop is agony. No use plastering or rubbing the back in this condition. You cannot reach the cause. To exchange a bad back for a new and stronger one, follow the example of this Seymour citizen.

Mrs. John Owen, corner of Beech and Jackson streets, says: "I suffered dreadfully from my back and kidneys and there were pains in my head. I doctored and doctored but received no permanent benefit. My kidneys were out of order, the secretions were annoying and my rest was much disturbed at night. I found that my heart was being affected as time went by. On learning of Doan's Kidney Pills sold by C. W. Milhous I procured a box, although I had little expectation of finding relief. I was more than gratified when I found they promptly benefited me, relieved me of pain in my back, strengthened the kidneys and banished annoyance from the secretions."

A Certain Cure for Dysentery and Diarrhoea.

"Some years ago I was one of a party that intended making a long bicycle trip, says F. L. Taylor, of New Albany, Bradford county, Pennsylvania. 'I was taken suddenly with diarrhoea and was about to give up the trip when Editor Ward, of the Laceyville Messenger, suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy and this time one dose cured me.' Sold by C. W. Milhous, druggist.

GOOD FROM DISEASE

SEVERAL AFFLICTIONS MAY HAVE THEIR COMPENSATIONS.

An Attack of Smallpox. If You Get Over It, Will Add Years to Your Life—Sufferers From Rheumatism and Gout Are Long Lived.

Have you had smallpox? If you have and you have recovered from the terrible disease without your eyesight or hearing being seriously affected, as is very often the case, you may congratulate yourself that smallpox attacked you, for you will probably, barring accidents, live considerably longer and enjoy better general health than if you had never had the disease.

It is a remarkable fact—one of nature's peculiar compensations—that people who have suffered from smallpox generally live longer than people who have not. Why this should be the case there is only an unproved theory to explain, and the theory is that the microbes which go to make smallpox, being very powerful and pugnacious, swallow up the microbes of many other diseases which they find in the systems of the persons they attack; hence, by contracting smallpox severely, you stand a good chance of eliminating from your system other diseases which would seize upon you at some time or other and, likely enough, prove fatal. At the same time it must be admitted that smallpox is not scheduled as a preventive medicine, and the number of persons it either kills, maims or inflicts with mental incapacities is probably greater than the number of persons whose lives it prolongs.

At the same time it is a fact that the disease, though one of the most terrible known to medical science, does you a great deal of good if you are capable of throwing it off without suffering after effects of a more serious character than being pitted with the queer little marks it almost invariably leaves behind to distinguish its victims.

Numbers of elderly persons in more or less feeble health are kept alive by coughs, such, for instance, as bronchitis. Chronic coughs are peculiarly common to old people, and hundreds who complain of the distress caused them by such affections are really indebted to their coughs for their length of life. The reason of this is that most elderly persons suffer with weak hearts and feeble circulation of the blood, and weak hearts become weaker merely as a result of their weakness. A constant cough corrects this, keeps the heart beating more strongly than it otherwise would, and the strong heart beats keeps the blood circulating more quickly, and the vital organs are thus kept in a state of activity which could only be maintained by artificial means and for a limited time by the trouble-some cough.

Moreover, the constant reminders given by the cough deter the sufferers from running risks of catching colds. In other words, they have to study their health or suffer more acutely from their coughs, and, choosing the former, they benefit accordingly.

Gout and rheumatism are exceedingly painful diseases and of course in some cases prove fatal, but they confer many a blessing upon mankind, and rheumatism particularly is well known to doctors as a preventive of many other diseases. It is a notorious fact that gouty subjects generally live to a ripe age, and albeit they suffer very severely at times they generally enjoy excellent general health, the very causes of the gout keeping their blood in good condition and making it unendurable to many kinds of microbes.

Cases have occurred of whole households, except one member, being stricken down with infectious diseases, and the lucky exception has been a sufferer from rheumatism or gout, which alone has prevented him from contracting the diseases which have run through the house. Such sufferers do not run half the risk of catching the common illnesses that nonsufferers run, and a large proportion of the people who reach ages of fourscore years are people who for years have suffered from gout or rheumatism, to which fact they undoubtedly owe many of the years they have lived over the allotted span.

Take half a dozen persons over the age of seventy who suffer from rheumatism or gout and half a dozen others who suffer from neither and you will find that, except for their rheumatism or gout, they enjoy very much better health than the nonsufferers and stand a splendid chance of outliving the latter. Moreover, gout and rheumatism greatly enhance a sufferer's chances of retaining his mental faculties until the end. A large percentage of centenarians who died with all their wits about them and with excellent memories of the days of their youth have suffered for many years from rheumatism and been particularly free from other diseases.

The loss of a leg or an arm is also said to do you good in the long run. Perhaps that is an awkward phrase to apply to the loss of a leg, but let it stand. It certainly seems that when a man is deprived of a leg or an arm the vitality and vigor of the lost member remain with him to increase the vitality of the remainder.

It has been declared by an eminent authority that when a man has a leg cut off, he being in sufficiently good health not to collapse from the operation, adds two or three, sometimes more, years on to his latter days.—Pearson's Weekly.

Flying Predictions. In 1273 Friar Bacon predicted that flying would "shortly" become a general practice, and Bishop Wilkins in 1652 said, "it will yet be as usual to hear a man call for his wings when he is going on a journey as it is now to hear him call for his boots."
